DISCUSSION QUESTIONS

1. How do you think having an unhealthy view of giftedness can lead to pride in us?
2. Have you ever caught yourself comparing your gifts with others? Why is this detrimental to the church?
3. Why is it important to start with Worship when it comes to our giftedness?
4. Have you ever thought about God giving you a specific gift that is meant to be used for the common good of the whole church? What would it look like for you to use your gift to benefit the body of Christ?
5. How could your lack of applying your gift hurt the church?
6. Take some time this week to take the spiritual gifts assessment on our website to see how you may be gifted to serve others. ([LINKED HERE](#)) After you take the assessment, talk about the results with someone (family member, friend, life group, spouse, small group leader, etc.). Do you think the assessment is true about you? Why or why not? What was most surprising to you about your results? Are you currently using your giftedness to serve others? If so, how? If not, how can you get started?
